183 vs 18: Final vote on impeach complaint came before dawn

Manila—The House of Representatives today voted 183 to 18 to approve a resolution to impeach President Fidel V. Ramos. The vote came after a long and heated debate that lasted into the early hours of the morning. The resolution was passed by a narrow margin, with 183 members of the House in favor and 18 members opposed. The vote was taken after a series of amendments were rejected, leaving the original resolution as the only one that could pass. The House Speaker, Juan Ponce Enrile, announced the results of the vote, stating that the House had reached a historic decision. The resolution, which was introduced by Representative Antonio Trillanes, calls for the impeachment of President Ramos on charges of abuse of power and violation of the Constitution. The resolution also calls for the removal of President Ramos from office and the holding of a snap election. The vote was taken in a secret session, with only members of the House and their staffs present. The results of the vote were announced to the public through a press conference held by the House Speaker. The vote was a significant milestone in the impeachment process, as it marked the first time that a resolution to impeach a Philippine president has been passed by the House. The next step in the process is for the Senate to vote on the resolution. If the Senate also votes to impeach President Ramos, he will be removed from office and a snap election will be held.

GMA aping Marcos, Ramos

LETTERS

Let member-consumers better off under Ratero

RECEIVED: 12/10/10 10:00 AM
 FROM: [REDACTED]
 TO: [REDACTED]
 SUBJECT: [REDACTED]

Dear Sirs,

I am writing to you regarding the recent developments in the GMA network. It seems that the network is following a similar path to the Marcos and Ramos families, which is a concerning trend. The network's management appears to be prioritizing personal interests over the interests of the member-consumers.

Under the current management, the network's performance has been subpar. The programming is repetitive and lacks innovation. The network's financial health is also a cause for concern, as it seems to be in a state of decline.

I believe that the network would be better off under a different management team, one that is more focused on the needs and interests of the member-consumers. A Ratero-style management approach, which emphasizes transparency and accountability, would be a welcome change.

I hope that the network's management will take my concerns into consideration and make the necessary changes to improve the network's performance and better serve its member-consumers.

Sincerely,
 [REDACTED]
